3. Introduction

The purpose of this document is to detail Omnivista Cirrus (OVC) licenses quoting and ordering process to be followed by authorized Business Partners (Direct Resellers and Distributors only). Indirect Resellers are not supported and to get a quote and place a purchase order Indirect Resellers must refer to Distributors.

As reminder, OVC is a Cloud application hosted on a public cloud providing ability to manage via a secured Internet ALE LAN and Stellar WLAN equipment running on end-customer premise.

For each device to manage from OVC, an OVC license must be purchased. Each OVC license provides a right to use OVC for managing either LAN or WLAN device for a duration (1, 3 or 5Y).

Each OVC license is proposing a level of support services for the devices:

- BASE OVC license not providing support and recommended for installed base.
- BUSINESS OVC license bundling “Partner Support” model for the device managed by OVC, available for all countries excluding United States of America
- PREMIUM OVC bundling “End-Customer Support” model for the device managed by OVC, available for all countries.

OVC licenses ordering process is orchestrated around 2 different online Web Cloud tools developed by Alcatel-Lucent Enterprise (ALE) to be used in sequence by authorized Business Partners for quoting & ordering.

1. **eBuy** Online Web application, a Web tool accessible from a secured Internet and especially from ALE Enterprise Portal (BPWS) providing for authorized Business Partners ability to quote and order a pool of OVC licenses regardless OVC end-customers and/or Indirect Resellers.
All OVC licenses ordered via eBuy by Business Partners are invoiced upfront.
2. **Subscription Manager** Online Web application, a Web tool accessible from a secured Internet and especially from ALE Enterprise portal (BPWS) providing for authorized Business Partners ability to pick and choose available OVC licenses ordered thru eBuy to be moved to a given OVC subscription for a given end-customer thru Indirect Reseller or not. (1 OVC End-customer subscription for 1 end-customer).

Please remember that creating a new OVC end-customer subscription thanks to Subscription Manager for a dedicated end-customer is not corresponding to OVC subscription activation.

Subscription creation is corresponding to a move of necessary available OVC licenses purchased via eBuy required for managing different LAN & Stellar WLAN devices running on end-customer network to end-customer OVC subscription.

Activating OVC end-customer subscription is corresponding to starting OVC subscription for ordered duration and this activation is requested via OVC graphical user interface.

Activation needs a unique activation code that is generated and delivered to Business Partner by Subscription Manager when creating OVC subscription.

4. eBuy: How to Quote/Order OVC licenses

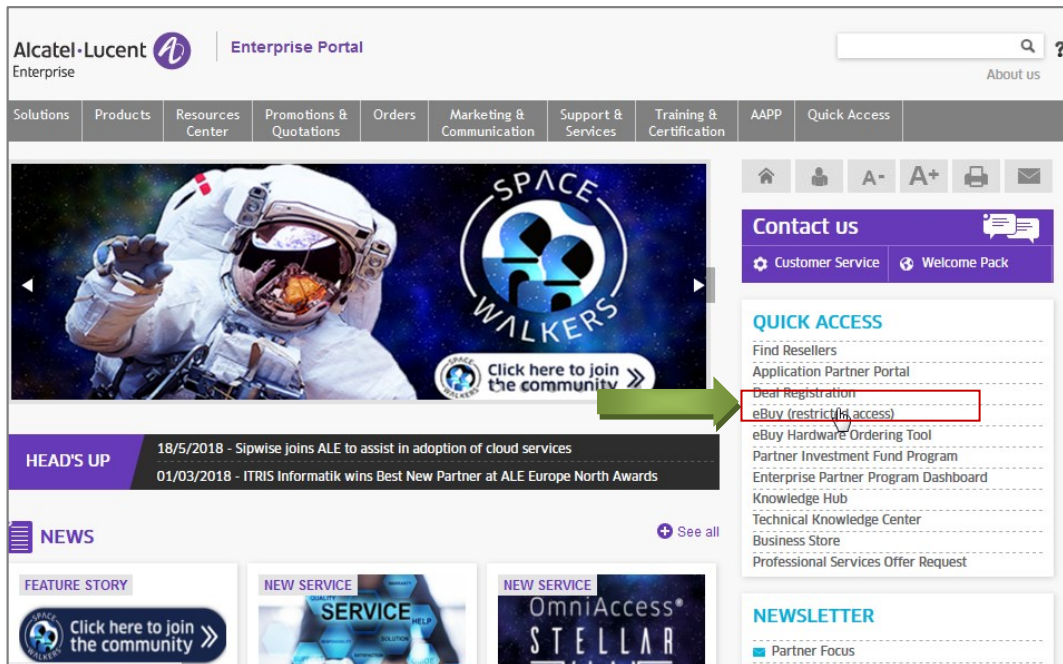

4.1.eBuy: How to access to eBuy

For accessing to eBuy application, you have 2 different alternatives:

- Use in your favorite browser the link <https://businessportal2.alcatel-lucent.com/ebuy-restricted-access>, you access to eBuy login panel or

- When connected on Enterprise Portal (BPWS), click on quick access link landing page as illustrated here below (“eBuy restricted access”), as you are already connected on BPWS, eBuy login panel is skipped as a Single-Sign-On capability is supported by eBuy.

4.2.eBuy: Login Panel

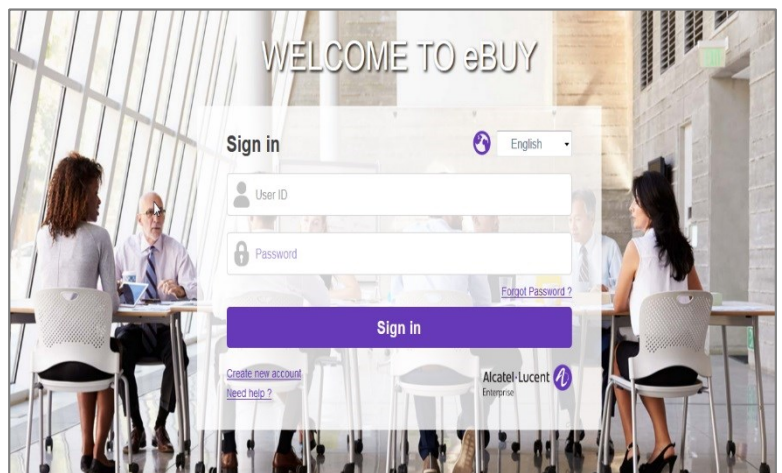

A Business Partner account is required to quote and place OVC licenses orders.

Access to the eBuy is secured by a Business Partner’s username/password credentials, which are sent by email to each applicant of Business Partner.

Enter your Username & Password to access to eBuy application.

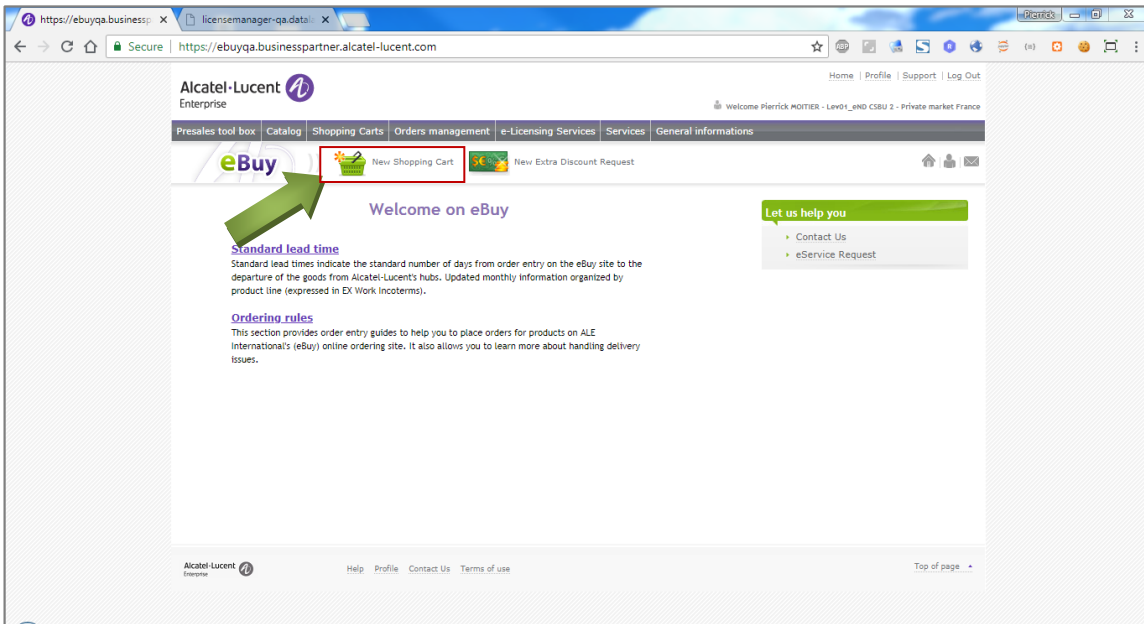

Note: Ask your ALE Channel Sales representative for getting your credentials if you don’t have them.

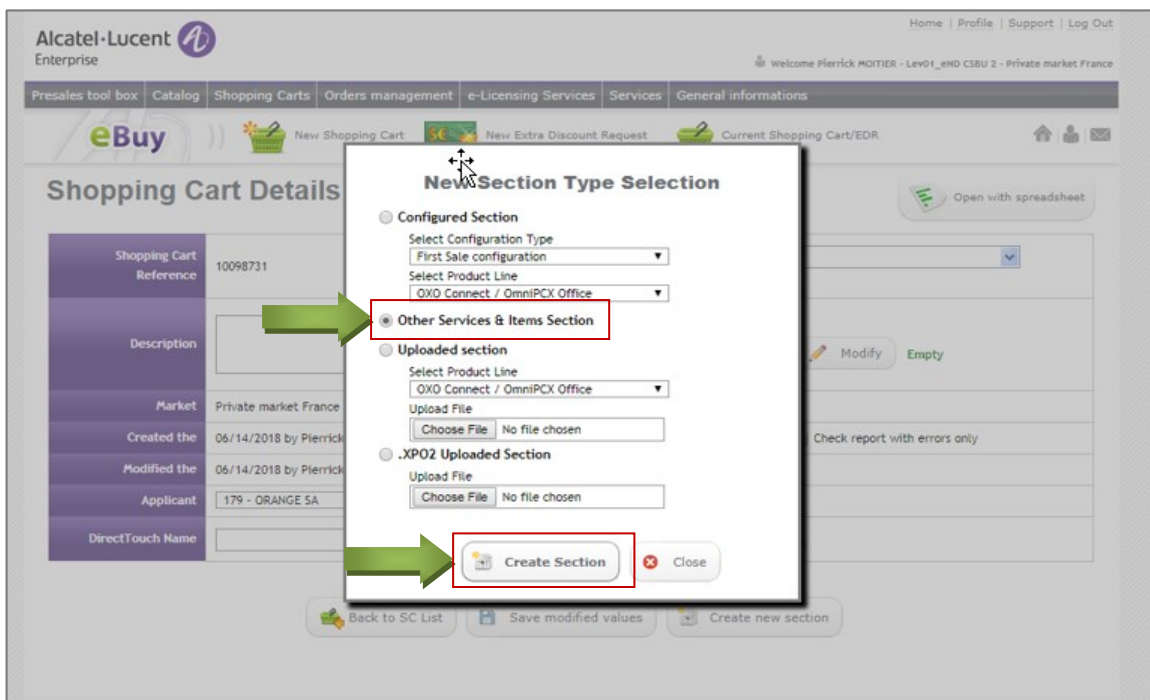

4.3.eBuy: How to create a new eBuy shopping cart

After login, eBuy landing page proposes to create a new shopping cart by clicking on new Shopping cart icon.

A window popup is displayed (illustrated here below) inviting you to select a new section type

Select “Other Services & Items section” and click on “Create Section” button, the page here below listing shopping cart details is displayed.

Shopping Cart Details

4.4.eBuy: How to add OVC licenses P/Ns in eBuy Shopping Cart

At this stage, list of OVC licenses part numbers and quantities to be quoted must be added to the shopping cart.

You can search for OVC licenses part numbers from the network catalog by clicking on “Pick From Catalog” button if you are not knowing exactly syntax of OVC licenses part numbers or by clicking on “Quick Add” button if you are knowing exact syntax of OVC licenses part numbers (.e.g. OVC-AP-BAS-3Y or OVC-ESS-BAS-3Y).

Please refer here below an illustration of a shopping cart including few OVC licenses.

Note: All OVC licenses ordered thru eBuy regardless the applicant of a partner are added in the pool of available OVC licenses for this partner.

Nothing is preventing a partner to order products and OVC licenses in same eBuy shopping cart

When ordered via eBay, necessary OVC licenses needed for managing end-customer LAN/Stellar WLAN devices have to be moved into an OVC end-customer subscription with the OVC Subscription Manager Web tool, please refer to section here below for creating an OVC end-customer subscription with necessary OVC licenses.

5. Subscription Manager: How to manage OVC subscriptions

5.1. Subscription Manager: How to access to OVC Subscription Manager

For accessing to Subscription Manager application, you have 3 different alternatives:

- Use in your favorite browser link <https://licensemanager.al-enterprise.com/>, you access to Subscription Manager login panel as illustrated section 5.2 page 11 or
- When connected on Enterprise Portal (BPWS), click on quick access link to Subscription Manager landing page as illustrated section 5.3 page 11 or
- When connected on eBay, click on quick access link to Subscription Manager landing page as illustrated section 5.4 page 12

5.2. Subscription Manager: Direct Access and Login Panel

A Business Partner account is required to manage OVC subscriptions via Subscription Manager.

Access to Subscription Manager with direct HTTP link is secured by a Business Partner's username/password credentials, which are sent by email to each applicant of Business Partner.

If you are accessing directly to Subscription Manager, enter your Username & Password to access to Subscription Manager application.

Note: Ask your ALE Channel Sales representative for getting your credentials if you don't have them.

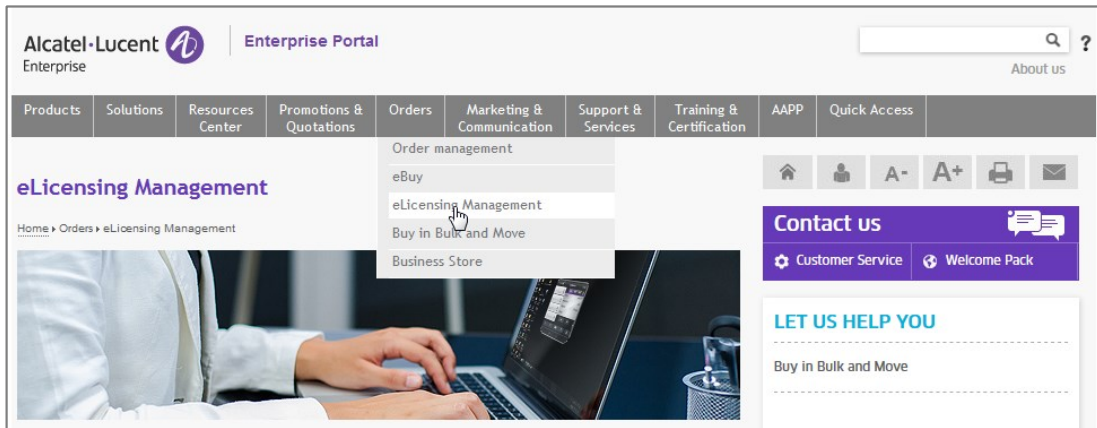

A screenshot of the 'WELCOME TO THE BUSINESS PORTAL' login page. It features a 'Sign in' section with a language dropdown set to 'English', a 'User ID' input field, a password input field with a masked password '*****', and a 'Log in' button. There are links for 'Forgot Password?', 'Create new account', and 'Need help?'. The Alcatel-Lucent Enterprise logo is in the bottom right corner.

5.3. Subscription Manager: Access via BPWS

here below illustrated how accessing to Subscription Manager via BPWS.

When connected on Partner Portal, click on item “eLicensing Management” form “Order” tab.

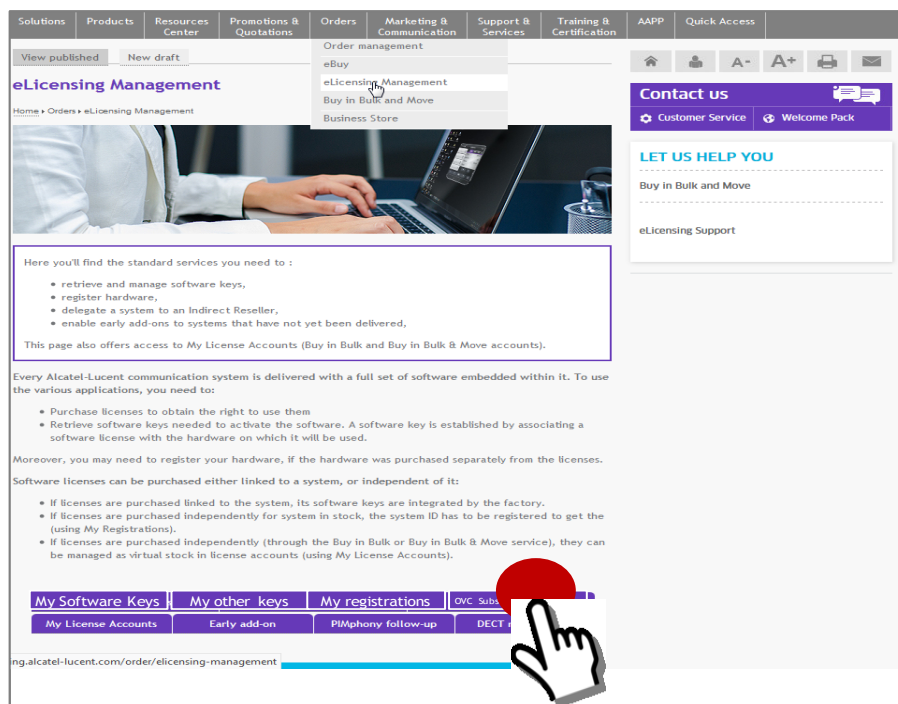

When eLicensing Management page is displayed, as illustrated here below click on button “OVC Subscription Manager” that is opening the OVC Subscription Manager section.

Click on link “OmniVista Cirrus Subscription Manager” that is opening “OVC Subscription Manager” Web tool.

As you are already connected on BPWS, Subscription Manager login panel is skipped as a Single-Sign-On capability is supported by Subscription Manager and Subscription Manager landing page is displayed.

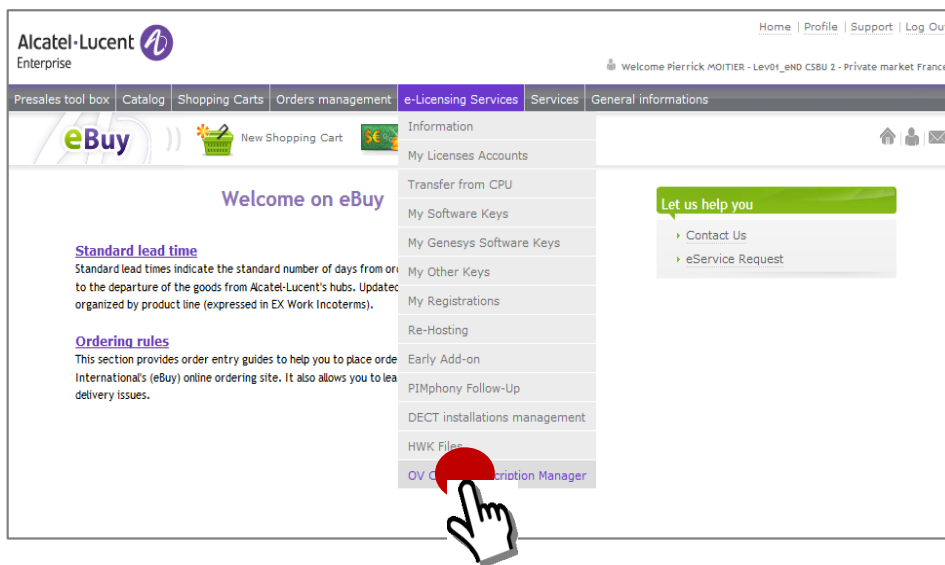

5.4.Subscription Manager: Access via eBuy

here below illustrated how accessing to Subscription Manager via eBuy. Select the “e-Licensing Services” tab to display a drop list and click on item “OV Cirrus Subscription Manager” link as illustrated here below.

As you are already connected on BPWS, Subscription Manager login panel is skipped as a Single-Sign-On capability is supported by Subscription Manager and Subscription Manager landing page is displayed.

As you are already connected on BPWS, Subscription Manager login panel is skipped as a Single-Sign-On capability is supported by Subscription Manager and Subscription Manager landing page is displayed.

5.5.Subscription Manager: Landing page

Please refer to screenshot here below, given as example, of Subscription Manager landing page listing OVC licenses ordered thru eBuy for all applicants of this partner.

4.1.Subscription Manager: How to display available OVC licenses

When connected on Subscription Manager, the Subscription Manager is proposing 2 different tabs:

- Tab “Subscription Creation” listing all available OVC licenses purchased via eBuy that can be moved to a new OVC subscription.
For a given OVC subscription, some constraints exist for moving OVC available licenses to a new OVC subscription:
 - a. Support Services level (BASE, BUSINESS & PREMIUM) that is provided by OVC licenses can’t be mixed in same OVC subscription.
 - b. Duration (1Y, 3Y or 5Y) that is provided by OVC licenses can’t be mixed in same OVC subscription
 - c. Type of devices managed (CORE, ESSENTIAL, ADVANCED & ACCESS POINT) that is provided by OVC licenses can be mixed in same OVC subscription till Support Services level is the same as well as duration is the same.
- Tab “Subscription Management” displaying all existing OVC subscriptions regardless if these subscriptions are yet activated or not from OVC standpoint. Activating OVC licenses for a given subscription is done at OVC UI level.

4.2.Subscription Manager: How to select OVC licenses for creating a new OVC subscription (New subscription use-case)

In the “Subscription Creation” tab, all available OVC licenses purchased thru eBuy are listed as illustrated on the figure here below

Subscription Creation

This table is displaying list of existing OVC subscriptions and for each: a reference, a creation date, a end-customer name, a service support level (BASE, BUSINESS or PREMIUM), a duration and a volume of OVC licenses per type (CORE, ESSENTIAL, ADVANCED and ACCESS POINTS).

On right side, 2 icons are proposed for 2 different available actions on existing subscriptions:

- Please click on icon **+** for adding OVC available licenses purchased via eBuy to OVC end-customer subscription. This case is corresponding to an OmniVista Cirrus expansion case proposing to add new

OVC licenses (Expansion) in an existing subscription. Reduction of OmniVista Cirrus licenses for an existing subscription is not allowed.

- Please click on icon  for renewing active OVC end-customer subscription before the termination of this subscription (or maximum 1 month after the termination corresponding to a grace period). On renewal (Extension case), adding new OVC licenses (Expansion) or removing existing licenses (Reduction) and/or changing duration (1, 3 or 5Y) for the renewal is allowed.

4.4.Subscription Manager: How to expand an OVC end-customer subscription (Add-on case)

When clicking on icon  of the relevant subscription (*), the following Web form is displayed inviting you to select from which orders you would like to add available OVC licenses ordered thru eBuy.

Adding available OVC licenses is possible from only 1 order from the list at a time, either from PO 20180706T1204 or from PO 20180702T1421 as illustrated in the example here above. If you are expecting to add OVC licenses from the 2 orders, run the following wizard twice by selecting 1 different PO reference at each time.

(*) Please refer to section 6 “OmniVista Cirrus: How ” for illustrating how identifying your subscription reference in the list of subscriptions

6. OmniVista Cirrus: How to activate OVC Subscriptions

6.1. OmniVista Cirrus: How to activate OVC licenses (New subscription case)

After having created your OVC subscription and received your activation code, you need to be connected on OmniVista Cirrus using your credentials.

When connected, please click on button “GET PAID ACCOUNT” located on top right corner as illustrated here below.

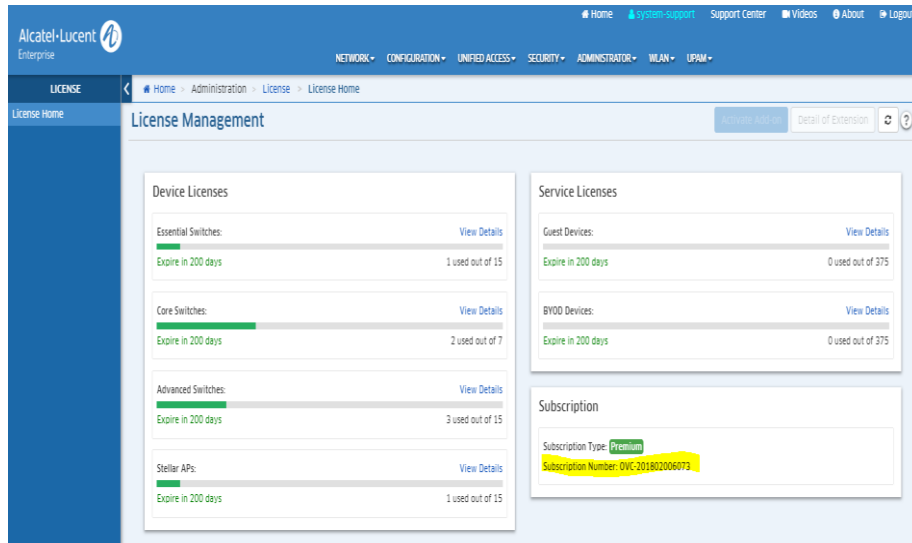

The following form is displayed inviting you to fill your activation code (received by email when subscription has been created and available in Subscription Manager). Check to agree with Terms & Conditions and click on button “Activate Now”

6.2.OmniVista Cirrus: How to display your Subscription ID

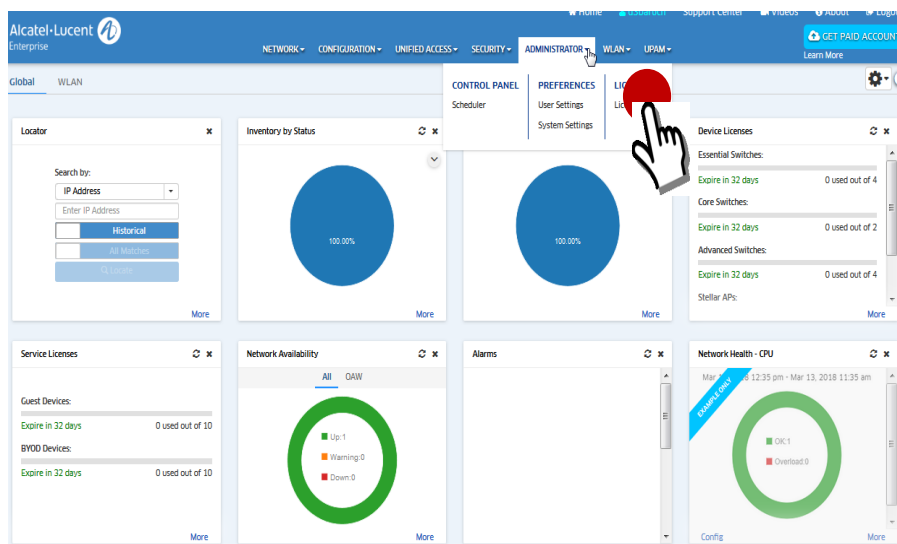

The OVC subscription ID is available in OV Cirrus UI under **Administrator -> License** app illustrated here below OVC-201802006073.

This is this subscription ID that has to be identified in OVC Subscription Manager tab “Subscription Management” for add-on or renewals cases.

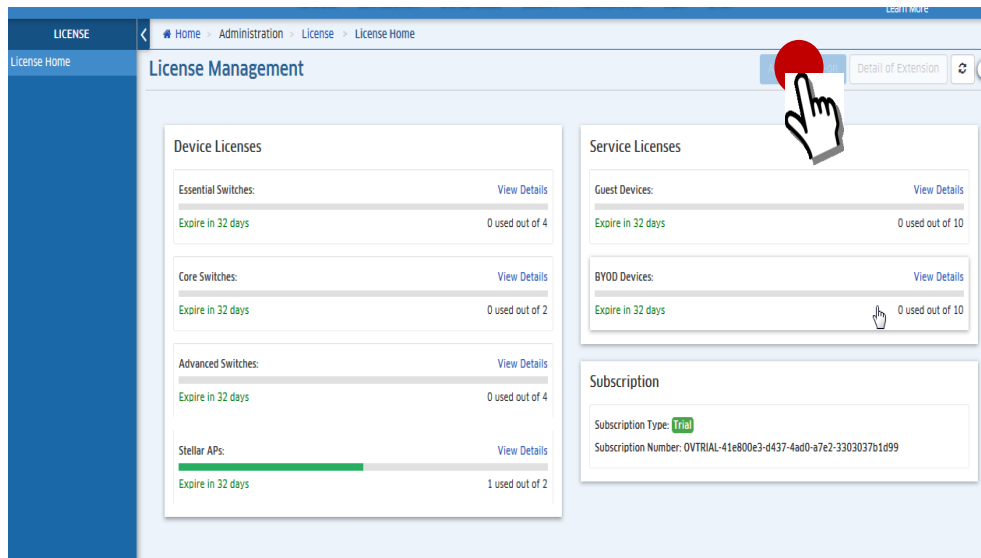

6.3.OmniVista Cirrus: How to activate new added OVC licenses (Add-on case)

When connected on OmniVista Cirrus where add-on is done, click on “License Home” item of the “Administrator” menu as illustrated here below

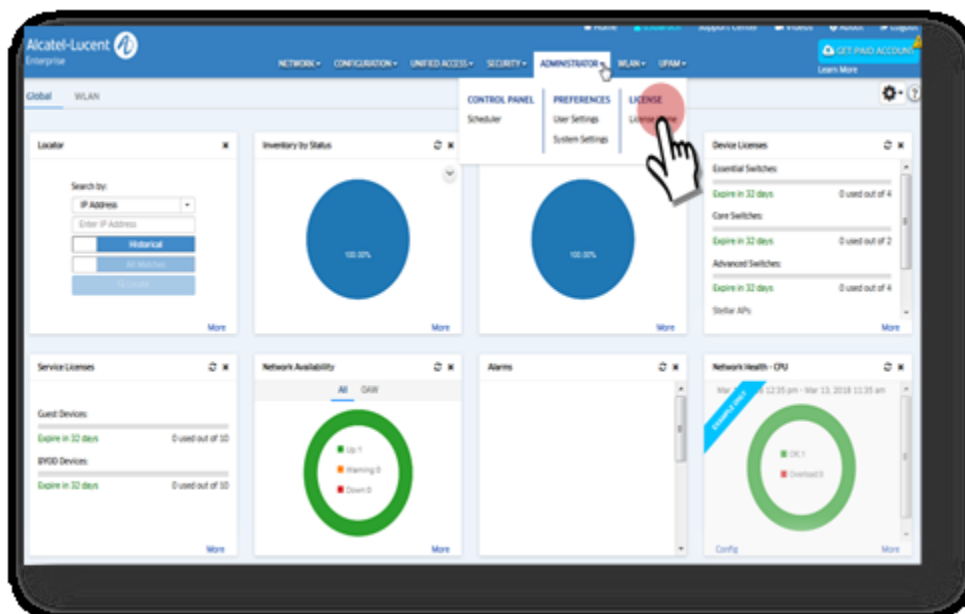

Then click on “Activate Add-on” button (*) for activating new licenses added in the subscription as illustrated here below. A new expiration date is calculated based on the dilution algorithm as all licenses of same OVC subscriptions are always co-terminating.

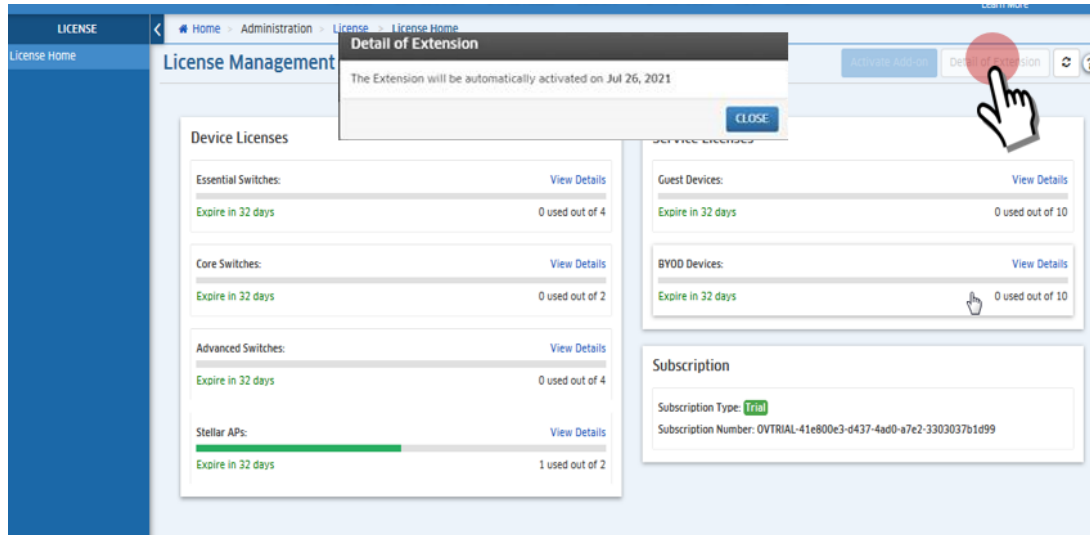

(*) **Note:** “Activate Add-on” button is enabled only when an add-on is done via OVC Subscription Manager for this subscription

6.4.OmniVista Cirrus: How to view details on OVC licenses renewed (Renewal case)

When connected on OmniVista Cirrus where renewal is done, click on “License Home” item of the “Administrator” menu as illustrated here below.

Click on “Detail Extension” button to view when renewal will be automatically activated.
